

**Native American Research Project- Due date: Thursday February 2nd**

In class, we have been studying various Native Americans tribes. The 8 tribes we are focused on are the Inuit, Tlingit, Nez Perce, Maidu, Sioux, Navajo, Iroquois, and Seminole. Choose a Native American tribe that we have **NOT** studied to research. You can use books from any library (including Ms. Martin's) and the internet. Find information about the tribe's food, clothing, shelter, and customs. Use the information you find to create a one-page poster. Follow the example below to complete your poster. Information should be written or printed on white paper and glued on to construction paper.

<p>Tribe Name</p>	
<p>A picture of members of the tribe. You can draw or print from internet.</p>	<p>Write at least one expository paragraph using facts about the tribe with a topic sentence, details, and a closing sentence. Include information about the food, clothing, shelter, and customs of the tribe.</p>
<p>A map of North America. Show the area where the tribe lived.</p>	
<p>NAME AND ROOM NUMBER</p>
